

ME  *Armes*

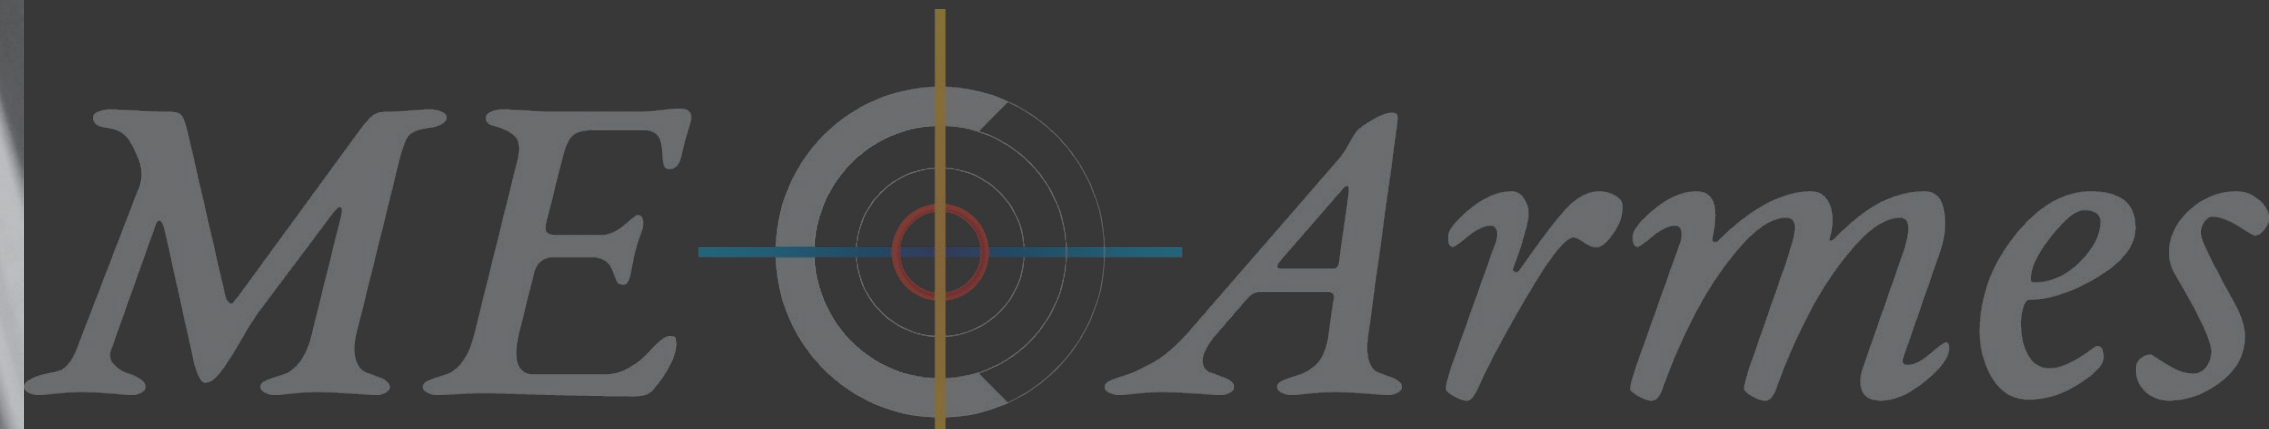

MECArmes, subsidiary of MECA industry, was founded in 2002 in Andorra by Magno Iannelli.

With a great desire for improvement and thanks to the extensive experience of more than 40 years in the design and manufacture of metal parts, Mecarmes has managed to position itself as a benchmark for the most demanding handlers looking for a perfect harmony between ergonomics and technique.

Design, innovation and quality are the values tirelessly pursued by the MECArmes team.

GE600 is our most iconic carbine. Our precise manufacturing process (cut entirely in one piece of metal), his ellegants shapes and the last generation materials used, we obtain a carbine with the best quality and performance, offering the best absorption in vibrations from a weight Very low.
The GE600 allows us to fix barrel by his own action with maximum preci-sion and grip.
It also has a wide range of colors both of stocks and accessories to create a carbine fully customized by and for the needs of the shooter.

GE 654

Works With

GE 654 Interchangeable adaptors system

The interchangeable inserts system specially designed by MECArmes, gives the shooter the facility to be able to change the barrel of the carbine by any other barrel of the most prestigious brands simply by purchasing an adapter.
Thanks to this system our rifles acquire an added value: we have been able to give a better life to our stock since it is possible to adapt can-nons of different modalities and marks for different categories of shot to a single stock.
As always our stocks offer maximum customization and quality.

GE 600/654 COLOR CHART

Ask for our huge color chart! Colors availables in mat and shiny.

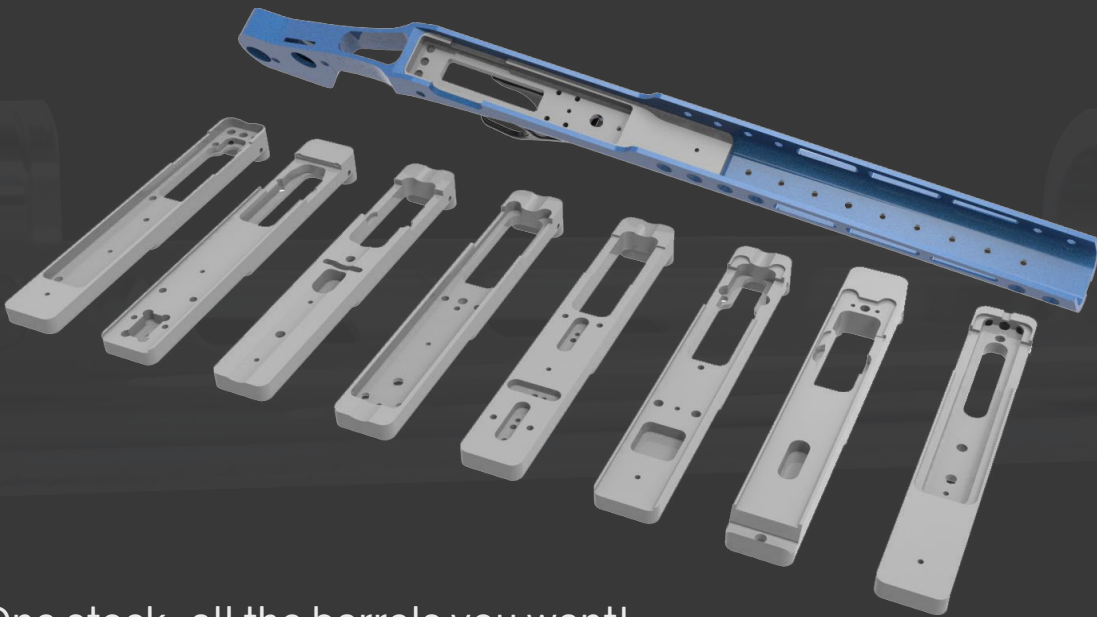

It allows the shooter unprecedented precision that almost completely eliminates any kind of vibration.
The evolution model adapts any barrel thanks to the adjustment system using Barrel rings.
These brackets tighten the barrel thanks to powerful silicone washers, eliminating the direct contact of metal against metal, and giving a very pleasant sensations in the shot.
Available in a wide range of fully customizable colors

GE 654 EVOLUTION

The GE600 Evolution also has the GE654 evolution version.
Thanks to the interchangeable adaptors system designed by MECArmes, you can freely adapt to your GE any model of action and barrel; by the action with screws, by the barrel with the barrel rings or by both systems
So this is our most versatile and evolved model of the entire range of GE: one single stock, all modalities, all barrels and all anchors.
